MEDICINAL.

It is a great affliction for a woman to have her face disfigured by pimples or any form of eruptive disease. It makes her morbid and sensitive, and robs her of social enjoyment. Disfiguring eruptions are caused by impure blood, and are entirely cured by the great blood-purifying medicine—Dr. Pierce's Golden Medical Discovery. It removes from the blood the poisonous impurities which cause disease. It perfectly and permanently cures scrofulous sores, eczema, tetter, boils, pimples and other eruptive diseases which are caused by the blood's impurity. It increases the action of the blood-making glands and thus increases the supply of pure rich blood.

"For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 116 West Main Street, Battle Creek, Mich. "I spent a great deal of money with doctors and for different kinds of medicine, but received no benefit. At last I read one of your advertisements in a paper, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I noticed a change, and after taking three bottles I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to any one similarly afflicted."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send at once-cent stamps for expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

Letters from Women

Cured by the use of Kodol are received daily. Their troubles nearly all begin with indigestion or other stomach disorder. If the food you eat fails to give strength to your body, it is because the juices secreted by the stomach and digestive organs are inadequate to transform the nutrient properties of the food into blood. This is indigestion. The system is deprived of the amount of nourishment required to keep up the strength, and the result is that one or more of the delicate organs gradually grows weak, and then weaker, until finally it is diseased. Here a great mistake is made. That of treating the diseased organ. The best doctors in the land make this very mistake. Why should they? It is so easy to see that the trouble is not there.

Kodol Cures

This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, tissue and fiber throughout every organ of the body, and by Nature's law of health, full strength and vigor is soon restored to each. Kodol cures indigestion, dyspepsia and all stomach disorders. I have taken Kodol for nearly two months after each meal and it is the only remedy that gave relief from the terrible pains I endured. After a time I would take it but once a day, and now, while I keep a bottle handy, I seldom need it, as it has cured me. Mrs. J. W. COOLBAUGH, Milo Center, N. Y.

GERMANY AND THE MONROE DOCTRINE.

A dispatch from Berlin says that representative Germans, including directors of the Deutsche Bank, the Deutsche Bank and large exporting firms have been interviewed to ascertain the sentiment as to recognition of the Monroe doctrine. There is a feeling strongly in favor of official recognition of the doctrine by the government. Leading financial and commercial representatives insist that the friction between Germany and the United States can easily be avoided in the future if the German government formally recognizes the policy of the United States toward South America. They also insist that German trade relations cannot be restored to a normal basis unless this issue is decided for all time. A director of the Deutsche Bank said: "The German government should recognize the Monroe doctrine. The Venezuelan trouble proved that Germany cannot be anything in South America without officially admitting the protection of the United States. If the agreement exists between Berlin and Washington, why is it not made public so as to prove that there is no estrangement on account of the Venezuelan affair?"

Considerable interest mingled with anxiety has been aroused in Government and naval circles by a cablegram stating that an American naval squadron is going to European waters. This is interpreted in Berlin as a demonstration of American naval power and a retort to the German campaign against Venezuela.

Germany has no intention of withdrawing or reducing its fleet in South American waters with the abandonment of the Venezuelan blockade and the peaceful settlement of the claims against that republic. On the contrary, it is said, representations will now be made to enforce payment of debts from Brazil and Colombia. Barely has the cloud of the Venezuelan case passed when another rises in the form of German demands upon Colombia, which may bring about special complications, owing to negotiations for the construction of the Panama canal by the United States. The Foreign Office said: "Ernest von Wildenbruch, Emperor William's favorite contemporary poet, and sometimes for that reason called the court poet, has written an article on 'Germany and the Monroe Doctrine,' in which he says it is clearly in a line with Germany's interest and policy to join with the United States in maintaining the Monroe doctrine and expresses the hope that the United States will extend its authority over all Latin America. 'This,' the poet says, 'may be the greatest struggle of the twentieth century. It will be a contest of the Germanic race against Latindom. Germany started the struggle against it in 1870 and America continued it in 1898. It is the inevitable strife of the Germanic against the Latin races, which must continue until the Germanic race is supreme. In this struggle no German can be in doubt as to where his sympathies and active aid should go.' Herr von Wildenbruch urges Germany to make an explicit and positive declaration in favor of the Monroe doctrine so that all the world may know where she stands and thus remove any doubt whatsoever that Germany is with the United States and that Germany has absolutely no occasion to be hostile to the Monroe doctrine, and on every occasion support it."

SCENE IN THE SENATE.

A dramatic scene was enacted in the Senate yesterday between Senators Henry M. Teller and Chauncey M. Depew during the latter's speech upon the statehood bill. Mr. Depew aroused the anger of Mr. Teller by certain statements made on the subject of senatorial elections, referring in an indirect way to the possibility of a repetition of the Delaware situation through the admission of new Territories, and Mr. Teller replied with great warmth. The galleries were crowded, and it was evident that the sympathies of the spectators were largely with Mr. Teller. Mr. Teller accused Mr. Depew of talking of revolution. Mr. Depew's remarks which caused the colloquy were as follows: "I warn Senators representing smaller populations that in the efforts of the people to have their way they may put this minority power so far that the people will have their way. We can easily imagine conditions where in the exigencies of politics in these great States there will be so many men ambitious and capable for the Senate that the purpose will go to popularize this body, and in some form two-thirds here and three-fourths outside may put an amendment to the constitution to have the States represented here as they are in the other body."

This reference to popular representation in the Senate brought Mr. Teller to his feet at once. Mr. Teller appeared excited. "Mr. President, I can see here a

MISS SARAH FINLEY,

Vice-President of the Palmetto Club, Memphis, Tenn.

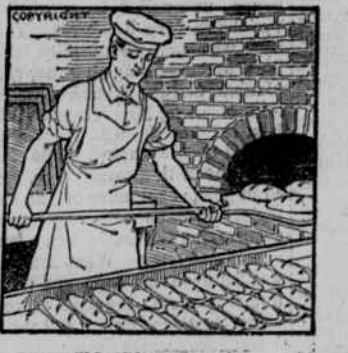

WINE OF CARDUI is a thoroughly scientific and modern remedy, meeting the needs of the modern woman in the modern way—without the torture of an operation. Wine of Cardui has cured them in the privacy of their homes and it has found a place in the hearts of American women that no other medicine has found. In their gratitude over 10,000 American women have written letters commending Wine of Cardui. Wine of Cardui meets their wants as no other medicine does. It sustains the young girl at the shock of her entrance to womanhood. Women who take Wine of Cardui have little discomfort during pregnancy and little pain at childbirth. When the change of life appears they enter a happy, healthy old age. Every month it comes to the rescue to assist Nature in throwing the impurities from the body.

Miss Sarah Finley, of Memphis, Tenn., vice-president of the Palmetto Club of that city, speaks for herself and many friends when she bestows the following praise on Wine of Cardui: "Among the numerous medicines placed before suffering women for their relief none can touch McElee's Wine of Cardui. It towers above them all as a reliable female remedy. It simply drives pain and disease away and restores health in an incredibly short period. I have taken great interest in this medicine for the past two years, since it brought health and strength to me. I have also recommended it to a number of my friends and they who have used it speak of it in the highest terms and I feel that it is praise well bestowed."

If you are suffering from female weakness Wine of Cardui is the medicine you need. You can have health the same as Miss Finley if you will take the Wine of Cardui treatment. If you need advice further than the complete directions given on the bottle, address The Ladies' Advisory Department, Chattanooga Med. Co., Chattanooga, Tenn.

threat of revolution in this country.

"It is a threat that the government of our fathers is to be destroyed just because the original plan by which the smaller States were to have in this body the same power that the large States have is now objectionable to the Senator from New York. We cannot live on the theory that the power of this government is to be concentrated in the large States. The Senate was organized by the wisest men that ever lived. New England, with its 12 Senators, has not as many people as the State of New York. I say the Senator from New York does not represent anybody in this country when he talks about breaking up the form of government which our fathers' wisdom and the experience of 125 years have shown to be beyond attack. 'I have listened to a great deal of nonsense,' continued Mr. Teller, 'and I have listened to a great deal that I considered beneath the dignity of the Senate, but I could not listen to the statement of the Senator from New York without saying that I feel the insult, and I say the American people will feel this insult from the Senator from New York.' Mr. Depew disclaimed any intention to advocate revolution or that he intended to insult the Senate or the people."
